

# New Codesys Versions

From time to time there are major changes in the new Codesys versions, please see the product description and version notes in our [Codesys store](#).

Isolated questions about this are addressed in the following articles

- [Some new things to look out for in CODESYS SP18](#)
  - [Modularization of the Development System - Installation Issues \(>= SP17\)](#)
- 

## Version SP17:

See: [SearchList](#)

- [Modularization of the Development System - Installation Issues \(>= SP17\)](#)
- [Library documentation \(LibDoc.exe\) \(>=SP17\)](#)
- [Disable \(forced\) device user management \(as of Codesys Version SP17\)](#)
- [OPC UA Client: How to use the Client \(>=SP17\)](#)
- [Error Message: "Invalid result package"](#)
